

MESA – Cosmic Retro

Try a free sample of the MESA – Cosmic Retro asset pack!

This demo includes 16 hand-crafted, low-poly sci-fi props selected from the full version — perfect for testing style, scale, and performance in your Unity scenes. Optimized for mobile and desktop, ready to use with URP (default).

Optimized for performance and ready to use in Unity (URP by default).

Key Features

16 FBX models & 16 prefabs

Low-poly stylized aesthetic

1×8×8 px texture (PNG) & 1 material

Optimized triangle counts

Drag-and-drop prefabs

Demo scene included (URP only)

Installation

Copy the CosmicRetroMesaPack folder into your Assets/ directory.

For URP (recommended)² assign the URP asset in Project Settings > Graphics.

For HDRP / Built-in² drag the corresponding config files from Render_Pipeline_Setups/.

Open the demo scene from Demo_Scenes/URP/ (URP only).

Drag any prefab from Prefabs/ into your scene and start building.
